volumes in motion

Style I

bering

Deep Hue, depth in forms

In glittering blue, this espresso machine is defined by satin-finished hexagon inserts shaped like interlocking cubes. The depth of color meets the depth of form - a balance of boldness and geometry, crafted with architectural intention and sparkling colors.

Deep in structure

Hexagon inserts take on new depth, shaped to resemble staggered cubes with satin metal surfaces. The result is a subtle interplay of light and shadow — a three-dimensional texture that gives the machine architectural presence and refined strength

Torre Espresso

matt blue

Minimalist, structured

This espresso machine in refined matt blue is accented with satin metal inserts shaped like interlocking hexagonal cubes. A bold interplay of color and volume creates a quiet, architectural presence.

Style 2

sand

Soft Glow, Sculpted Geometry

In a warm glittering sand color, this espresso machine is enhanced by satin metal hexagon inserts shaped like interlocking cubes. The gentle metallic hue meets structured depth, creating a quiet harmony of texture, form, and elegance.

Tone of nature

Inspired by the quiet elegance of natural tones - sand and olive - this collection blends organic colors with structured geometry. Satin-finished hexagon inserts, sculpted like cubes in motion, bring rhythm and depth to every surface.

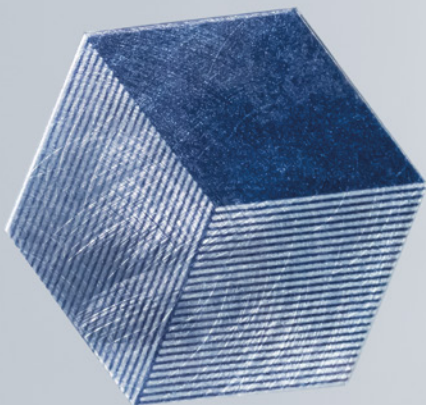

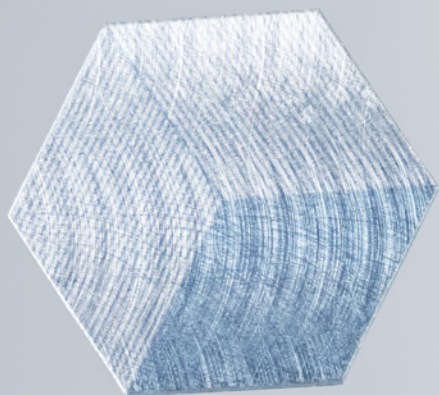

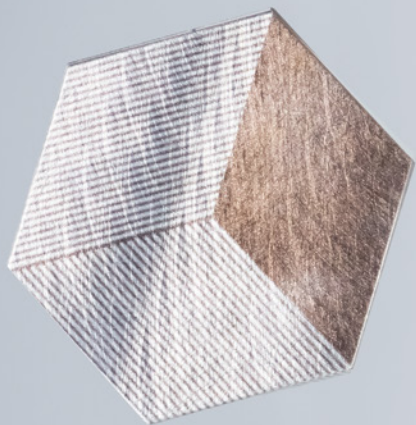

Torre Espresso

olive

Earth Tone, Natural sculpted

In a sophisticated olive finish, this espresso machine is enriched by satin metal hexagon inserts shaped like stacked cubes. The natural warmth of the color meets the precision of geometric texture

HYPER

Inserts to evoke three-dimensional cubes create a striking play of light and depth. This glossy, hand-finished detail adds a bold, sculptural illusion to luxury espresso machines - where artisanal technique meets optical artistry.
